

GATEWAY TO MASTERY®

Summer Institute 2008

Empower • Enlighten • Engage

Join us for five days of intensive professional development integrating the quality management philosophy of continuous improvement with proven teaching and learning research to improve every aspect of the school and classroom.

Learn how to...

- Drill down district and school improvement into the classroom
- Establish a standards based, continuously improving learning system
- Manage people, instead of behavior
- Increase and maintain enthusiasm
- Develop students into partners in their own learning
- Utilize process data to monitor progress and drive instruction
- And more...

I am completely delighted with the experience from the materials to our stay. This has been the best educational learning experience of my career.
Participant, Summer Institute, 2006

When: July 28–August 1, 2008

Where: Indiana State University
Terre Haute, IN

Who: Teachers, Administrators, Improvement Teams
